

**ZEROMILE AUTO**

A vibrant self-sustainable integrated manufacturing  
solution

**Product - Bending & Cutting**

**[www.zeromileauto.com](http://www.zeromileauto.com)**

Recognised by DIPP, Govt of India **#startupindia**

*For any queries, write us at [info@zeromileauto.com](mailto:info@zeromileauto.com)*

ZeroMile Auto's high-quality & precision metal stamping capabilities processes a wide range of metals to meet application-specific requirements. We provide custom metal shapes and parts produced using stamping and forming processes and can form complex shapes based on production tooling.

- |                              |                           |
|------------------------------|---------------------------|
| 1. Cutting Operations        | 5. Die Making             |
| 2. Bending Operations        | 6. Pressing Operations    |
| 3. Drawing                   | 7. Bedning of Tube Stocks |
| 4. Other Steel-Metal Forming | 8. Steel Metal Operations |

*\*\* These products are available in any specified quality and quantity as per client's requirements.*

## MACHINERIES AVAILABLE

### CNC Piper Bending

Maximum Dia - 85mm  
Maximum Length - 2000MM  
No. of Machines - 6

### Hydraulic Press Break

Maximum Thickness - 10MM  
Maximum Length - 4000mm  
No. of Machines - 12

# Product - Bending & Cutting

## CNC Tube Bending

Maximum Size - 40mm  
Maximum Thickness - 4mm  
No. of Machines - 4

## CNC Plasma Cutting

Maximum Width - 2000MM  
Maximum Length - 6000mm  
Maximum Thickness - 100MM  
No. of Machines - 6

## CNC Laser Cutting

Maximum Width - 2000MM  
Maximum Length - 6000mm  
Maximum Thickness - 20MM.  
No. of Machines - 12

## EDM Sparking

Maximum Width - 600mm  
Maximum Length - 300mm  
Maximum weight - 550 Kg  
No. of Machines - 6

## Industries & Applications

Sector	Application
Electronics	Telecom, computer, server, data communications, connectors and electronic components
Automotive	Components, sub-systems and other vehicle applications
Lighting	Custom components for exterior, interior lighting applications
Marine	Applications include connectors, fittings, enclosures, housings, caps, covers and couplings
Medical	Medical products, surgical devices, equipment, pumps, motors, probes
Construction	Hardware and metal components
Electrical	Components and assemblies for electrical / wiring components and systems
Aerospace	Electronic components, hardware, sub-assemblies, couplings and fittings

# We connect the world for Manufacturing...

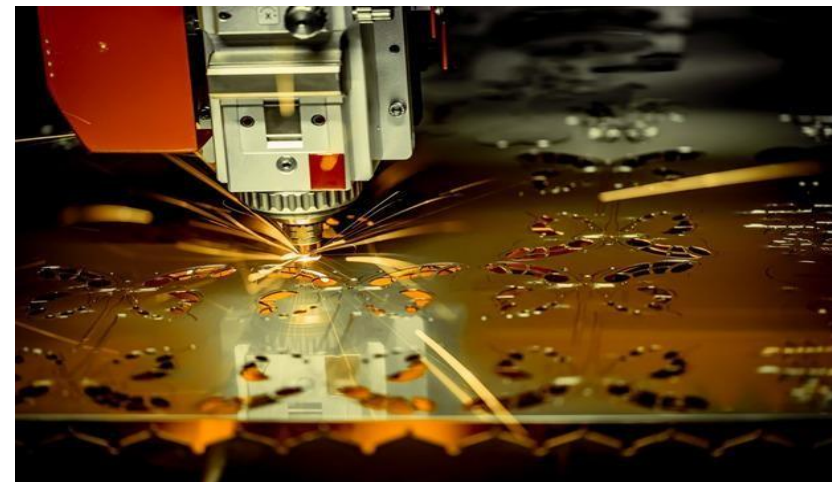

We're innovating the path to a new age in manufacturing. With technology at the centre of our efforts, we facilitate access to high-quality manufacturing parts.

**ZeroMile Auto** is a unified channel for all the services stated below -

***Machining***

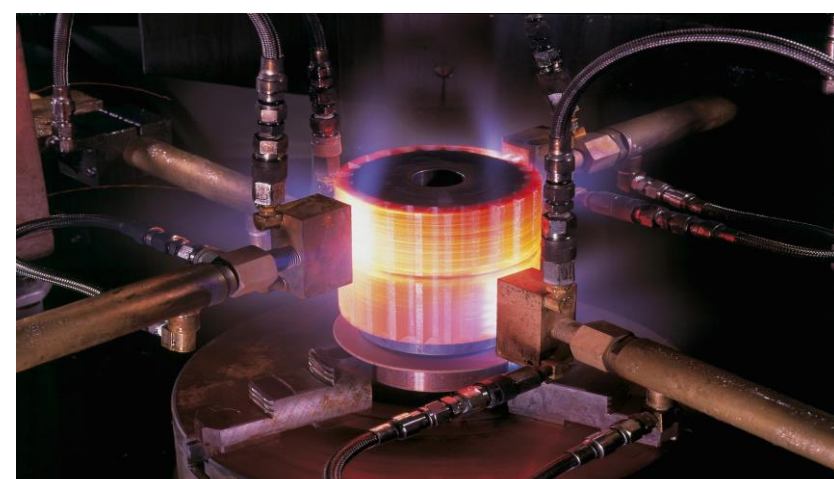

***Bending & Cutting***

***Joining***

***3D Scanning***

***Surface Hardening***

***Forming***

***Powder Coating***

***Casting***

**ZeroMile Auto Aggregator Pvt. Ltd.**
